Note from Carisa...

These are our personal checklists from the notebooks I make for my kids each year. I had many requests to share them so I bundled up all of our [Teaching Textbooks math](#) checklists. The format is slightly different from level to level, based on changes I made – but they are mostly the same. My kids like these so they can see at-a-glance how far along they are. I have my kids record each grade on this sheet as the year progresses so we have a paper copy of their grades also, since TT is on the computer!

I hope many of you who use TT can benefit from these!
